

URGENT NOTICE

Water Supply Interruptions

Saturday, 17th December 2022

Subject: Water Supply Interruptions on Vaalkop Supply Scheme Due to High Turbidity

Magalies Water hereby informs customers receiving water supply from the Vaalkop Supply Scheme, that due to recent torrential rains experienced in our catchment area there has been a reduction in the output of water volumes from the Vaalkop Water Treatment Plant. This is as a result of the high turbidity in the Vaalkop dam.

Consequently, the reduced treatment rate is anticipated to prevail for a period of 8 hours after which normal treatment volumes should continue.

The following consumers will experience water supply interruptions during this period:

- **Rustenburg Local Municipality**
- **Royal Bafokeng Administration areas**
- **Moses Kotane Local Municipality and Sun City**
- **Thabazimbi Local Municipality**
- **Mines operating in the above-mentioned areas**

Consumers are requested to use water sparingly during this time and Magalies Water would like to apologize for any inconvenience caused.
