

URGENT NOTICE

Water Supply Interruptions

Tuesday, 10th January 2023

Subject: Water Supply Interruptions on Cullinan Supply Scheme Due to Electricity Supply Outage

Magalies Water hereby informs customers receiving water supply from the Cullinan Supply Scheme of imminent water supply interruptions. This is due to electricity outages that have affected operations at the Wilge Dam. As a result of the power outages, raw water has become unavailable for supply to the Cullinan Water Treatment Plant as the Wilge raw water pump station is off-line. This will affect the output of bulk water supply to consumers in the Cullinan scheme.

Eskom has been notified and at this stage Magalies Water is awaiting feedback on this matter including the possible return to service of the affected raw water pump station.

Consumers are therefore requested to use water sparingly during this period, until the situation improves. Magalies Water would like to apologize for any inconvenience caused.
