

URGENT NOTICE

Water Supply Interruptions

Wednesday, 08th February 2023

Subject: Water Supply Interruptions on Vaalkop Supply Scheme to Bospoort Bulk Pipeline

Magalies Water hereby notifies consumers receiving bulk water from the Vaalkop Supply Scheme to the Bospoort bulk pipeline of an envisaged water supply interruption. The water supply interruption which has led to reduced bulk water output, is a result of a raw water pump 8 failure earlier this evening. Preliminary investigations reveal that the pump, has broken down due to wear and tear associated with the lifespan of the wear rings.

There will be a reduction of the output of potable water from the normal 85 megalitres to 65 megalitres per day during this period. It is anticipated that the pump will be recommissioned by no later than Monday, as it will be undergoing repairs from tomorrow into the weekend.

The following bulk consumers may experience water supply interruptions during this period:

- Rustenburg Local Municipality
- Royal Bafokeng Administration
- Rand Water Supplied Areas (from Bospoort)

Magalies Water encourages consumers to use water sparingly during this period in order to prevent prolonged water supply interruptions. We apologize for the inconvenience that this may cause. For additional information, consumers can contact the Magalies Water Call Centre – 0860 000 720.
