Subject: Water Supply Interruptions in Wallmansthal Supply Scheme Due to Electricity Outage

Magalies Water hereby informs customers receiving water supply from the Wallmansthal Supply Scheme of envisaged water supply interruptions. This is due to wide-spread electricity outage in parts of Tshwane, which have affected operations at the Roodeplaat Water Treatment Plant. As a result of the ongoing electricity outage, there is no augmentation onto the scheme which will affect bulk water distribution.

We urge customers to use water sparingly during this period in order to prevent prolonged water supply interruptions. Updates will be communicated in due course. Magalies Water apologizes for the inconvenience that this may cause.
