Subject: Planned Shutdown on Vaalkop Supply Scheme to Bospoort Bulk Pipeline Due to Maintenance Work

Magalies Water hereby informs customers receiving water supply from the Vaalkop supply scheme of a planned water supply interruption due to a shutdown. This will affect the Bospoort bulk pipeline, this is due to an installation of a delivery valve, which is a protection device for the pump in Plant 3. This protection device is critical during periods of stop-and-starting procedures of the pump.

The shutdown will be implemented as follows:

Date: 26th April 2023 (Wednesday)

Time: 07:30 am – 3:30 pm

The following customers may experience water supply interruptions during this period:

- Royal Bafokeng Administration
- Rustenburg Local Municipality
- Rand Water Supplied Areas (from the scheme)

We urge consumers to use water sparingly during this period in order to prevent prolonged water supply interruptions. Magalies Water apologizes for the inconvenience that this may cause.
