

URGENT NOTICE

Water Supply Interruptions

City of Tshwane Metro Municipality

Tuesday, 16th May 2023

**Subject: Water Supply Interruptions in Wallmansthal Supply Scheme Due Absence of
Augmentation Bulk Water Supply**

Magalies Water hereby informs customers receiving water supply from the Wallmansthal Supply Scheme of envisaged water supply interruptions. This is due to the suspension of operations at the City of Tshwane owned Roodeplaat Water Treatment Plant (WTP), following a pipe burst incident.

As a result of this incident which has forced temporary suspension of operations at the Roodeplaat WTP, the augmentation supply into the scheme has been adversely impacted thus resulting in critically low bulk water output. Information available at stage is that the plant will be put into operation tomorrow, after which augmentation supply to the scheme will be available.

In the intervening period there will be water supply interruptions, until such time the scheme has fully recovered and normal bulk water supply via augmentation has returned to normal levels. We urge customers to use water sparingly during this period in order to prevent prolonged water supply interruptions.

Magalies Water apologizes for the inconvenience that this may cause.
