

## URGENT NOTICE

### Water Supply Interruption

**Sunday, 25<sup>th</sup> June 2023**

**Subject: Update - Water Supply Interruptions Due to Mechanical Breakdown on Vaalkop Supply Scheme to Bospoort Bulk Water Pipeline**

Magalies Water hereby informs customers receiving water supply from the Vaalkop Water Treatment Plant through the Bospoort bulk water pipeline, that water supply interruptions will regrettably continue, following initial communication on the 19<sup>th</sup> of June 2023. Following extensive investigations on the motor, after the mechanical breakdown incident affecting motor number five (5) on plant three (3), extensive damage to the bearings and shaft were discovered which, have inadvertently prolonged the envisaged timelines for the completion of repairs.

Information available from the original equipment manufacturer at this stage, indicates that repairs will be completed by the 7<sup>th</sup> of July 2023. Immediately upon the completion of repairs, necessary testing, and commissioning of the motor will follow. Should the aforementioned timelines change to the extent that the repairs are completed prior to the 7<sup>th</sup> of July 2023, customers will be informed accordingly.

The following customers, will experience water supply interruptions during this period:

- Rustenburg Local Municipality
- Royal Bafokeng Administration
- Rand Water Supplied areas from the scheme

Magalies Water apologizes for the inconvenience caused in this regard.
