

URGENT NOTICE

Water Supply Interruptions

Monday, 19th June 2023

**Subject: Water Supply Interruptions Due to Mechanical Breakdown on Vaalkop Supply Scheme -
Bospoort Water Treatment Works Bulk Line**

Magalies Water hereby informs customers receiving water supply from the Vaalkop Water Supply Scheme to the Bospoort Water Treatment Works bulk water pipeline of a mechanical breakdown. This incident relates to the collapse of motor number five (5) on Plant number three (3), which has subsequently caused reduced bulk water outflow to Bospoort WTW.

Consequently, the following bulk customers may experience water supply interruptions, during this period:

- Rustenburg Local Municipality
- Royal Bafokeng Administration areas
- Rand Water supplied areas from the scheme

Customers are advised, that despite the reduction in pumping rates to Bospoort WTW, Magalies Water continues to supply bulk water volumes in compliance with the agreed quota. More information will be communicated once a preliminary report arising from this incident has been concluded, including the remedial actions to be undertaken.

Magalies Water apologizes for the inconvenience that this may cause.
