The scope of work entails and is not limited to the following:

4.1 Fire Station Borehole

- Service Provider to remove existing trees and vegetation at the borehole site. Trees must only be removed upon approval by Magalies Water's Representative. Existing trees shall be dug, potted and stored as directed by the project Manager.
- All removed materials and rubble shall be disposed of by removing them from site at the contractor's costs. Burning of removed materials will not be permitted on the site.
- Geohydrological study, Sitting and drilling of a new borehole
- Contractor to conduct Boreholes yield test (4 hrs steps and 24 hrs constant discharge)
- Contractor to collect water samples to conduct chemical & micro-biological tests at an accredited laboratory.
- Replacement of the existing or installing new equipment (pump, pipes, motor and fittings).
Measurement of borehole depth
- Service provider to connect the borehole to the power supply. All required applications for the new connection to be completed by the service provider.
- Service provider to install a water treatment system on each borehole. Water should be treated to a drinkable standard.
- Service Provider should verify that the newly equipped boreholes are functioning well, and pumped water is reaching the elevated tank at the fire station prior to handing over site to the Magalies Water.

5. Pricing Schedule

Item	Description	Unit	Quantity	Unit Cost	Total Cost
1	Site establishment and borehole assessment	No.	1		
1.1	Drilling	No.	1		
2	Borehole yield test (4 hrs steps and 24 hrs constant discharge)	No.	1		
3	Supply of electrical cables and components	No.	1		
	5.5 Dol Starter Orange control box	No.	1		
3	Supply and installation of Timer, Conductors, Contactor, Circuit breakers, Condenser and Switch	No.	1		
4	Supply and Installation of the equipment (pump, pipes, motor and fittings)	No.	1		
5	Supply and installation of pipe and fittings, this include: 50 mm Screwed Flange T/1600 50 mm galvanised union 50 mm Spring loaded check valve 50 mm flanged water metre T16 50 mm x 100m HDPE pipe Galvanised barrel nipple 100 mm Galvanised Elbow 90D FF 50mm	No.	1		
7	Supply of Pressure gate and Pressure switch	No.	1		
8	Supply and installation of the outlet with DWS specifications (water meter, pressure gauge)	No.	1		
9	Supply and installation of the dosing system (Dependent on water quality results)	No.	1		
10	Geohydrological report	No.	1		
11	Health & Safety	No.	1		
12	Development of Operations Manual and Project Reporting	No.	1		
				Sub-Total	
				Contingencies (10%)	
				Sub-Total	
				Vat	
				Total

E-mail address: dineom@magalieswater.co.za	RFQ – 10020132

Within seven (7) days after acceptance of Purchase Order the service provider shall submit for approval:
Electrical Drawings, such as:

- Where relevant, general layout of the control panels.
- Circuit diagrams for the system.
- Block diagram of the system.
- Cable and Equipment Schedules.
- All cable routes shall be shown on the site plan drawings.

The drawings will be evaluated and approved Moretele Local Municipality Electrical Department and Magalies Water.

7. Deliverables

A fully functional borehole, to meet the requirement as outlined by Magalies Water Representative and supported by Moretele Local Municipality.

Upon completion of works, the contractor shall submit a comprehensive operations and maintenance manual which shall include, but not limited the following:

- Step-by-step maintenance instructions of all instruments and other components of the system that might require maintenance, clearly explaining how each item should be maintained with pictures clearly indicating service points, where applicable.
- Step-by-step calibration instructions of all instruments where applicable.
- All measurements recorded at tests during commissioning
- Results of water quality test

This documentation will be required within 14 days after Commissioning.

8. RFQ Evaluation

Submitted RFQ's will be assessed based on the following:

- a) Price
- b) Timelines
- c) Methodology of conducting installation of boreholes.
- d) Key project Personal. CV's to be attached.

Bidders to propose their timelines anticipated to hand deliverables to client. A Gantt chart may be submitted to illustrate proposed timelines by bidder.

7.1 Functionality

1. Submission of Quotations

RFQ Number must always be stated on the quotation.

Quotations should be submitted on email below. Email: dineom@magalieswater.co.za

2. Selection of Qualifying Quotation

The selection of the qualifying quotation will be at Magalies water's sole discretion. Magalies Water does not bind itself to accept any particular Quotation

3. Evaluation

The quotation will be checked for responsiveness according to the following **REQUIREMENTS:**

- Quotation must have CSD vendor number/ submit CSD Report
- Quotation must have RFQ reference number
- Completed and signed Declaration of Interest Form (SBD4)
- Quotation with validity period should be 30 days or more.
- Quotation with physical address, date, contact details and banking details

4. Terms & Conditions

Quotations received after the closing date will not be accepted.

All costs to be included in the quotation.

Delivery must take place at the specified place.

Quotations to be valid for 30 days from date of issue.

All non-responsive bids will be rejected.

The Government Procurement General Conditions of Contract shall apply.
