**Subject: Water Supply Interruptions on Cullinan Supply Scheme Due to Increased Water Demand**

Magalies Water hereby informs consumers receiving water supply from the Cullinan Supply Scheme, of envisaged water supply interruptions. This is due to higher-than-normal water consumption patterns, which have strained supply. This has caused reduced abstraction rates from the Wilge Dam, through which the supply scheme is linked, and will result in water supply interruptions until the scheme stabilizes.

Due to increased water demand and the subsequent strain on the scheme, we urge consumers to use water sparingly, in order to prevent prolonged water supply interruptions.

Magalies Water apologizes for the inconvenience that this may cause.
