

URGENT NOTICE

Water Supply Interruptions

City of Tshwane Metropolitan Municipality

Thursday, 14 September 2023

**Subject: Water Supply Interruptions on Wallmannsthal Supply Scheme Due to
Suspension of Augmented Bulk Water**

Magalies Water hereby informs consumer receiving water supply from the Wallmannsthal Supply Scheme, of envisaged water supply interruptions. This is due to suspension of augmented bulk water supply from the Roodeplaat Water Treatment Plant, which supplies the scheme. Normal augmentation of bulk water supply, from the plant has been diverted to supply to other areas within the municipal jurisdiction, experiencing water shortages.

Consequently, due to increased water demand and the absence of the augmented bulk water supply, water supply interruptions are envisaged to last between 24 and 36 hours. Given the severity of this regrettable inconvenience, we urge consumers to use water sparingly, in order to prevent prolonged water supply interruptions, when the scheme resumes with full-capacity operations.

Magalies Water apologizes for the inconvenience that this may cause.
