Item No.	Description/Specification
1.	<p>Crocodile and Magalies Rivers along with their feeding tributaries. In response, there is a need to install barrier lines to capture residual substances from the first filtration system for the benefit of water quality of the water in dam and its primary and ancillary services. This project seeks to acquire services of a competent and experienced service provider to assist with the Design and installation of the flexible barriers for the removal of floating substances in Hartbeespoort Dam. This should be anchored using robust civil structure with cognizance of worst case scenario in terms of flood line and climate extremities. This line should be used to capture finer and smaller floating materials as a polishing step. Clean ability of the barriers should be considered during the design and every ecological activities should be favored since impeding ecological systems could affects the holistic functioning of the dam in terms of ecological services.</p> <p>Briefing will be on 09th October 2023</p> <p>COMPREHENSIVE SPEC TO BE REVIEWED AT THE BRIEFING</p> <p>Briefing will be on 09th October 2023 ...10H00 AM FOR 11H00 AM...AT Hartebeespoort Dam..DWS Office</p>
