

## **URGENT NOTICE**

### **Water Supply Interruptions**

**Friday, 10 November 2023**

**Subject: Water Supply Interruptions on Wallmannsthal Supply Scheme Due to Power Failure**

Magalies Water hereby notifies customers receiving water supply from the Wallmannsthal Supply Scheme, of envisaged water supply interruptions. This is due to a power supply challenge which has affected operations at the Roodeplaat Water Treatment Plant, which supplies the scheme with augmentation of bulk water supply. Information available to Magalies Water indicates that electrical repairs will be completed later today. While the scheme remains operational, the demand currently exceeds water supply. As such water supply interruptions where water pressure may be reduced and or water supply suspended will continue until tomorrow, when the scheme is envisaged to stabilize.

We urge customers to use water sparingly during this period in order to prevent prolonged water supply interruptions. Magalies Water regrets the inconvenience that this has caused.
