

URGENT NOTICE

Water Supply Interruptions

Monday, 11th December 2023

Subject: Water Supply Interruptions Due to Demand Management on Lapatrie Northern Scheme

Magalies Water hereby notifies consumers receiving water supply from Vaalkop through Lapatrie Northern Scheme, of envisaged water supply interruptions. Following, an incident of power failure on the side of Eskom lasting several hours, which had an adverse impact the on availability of potable water, resulting in reduced reservoir levels has left the scheme constrained. While power supply has improved, Eskom has not communicated the completion of repair work, arising out of a cable-theft incident, which caused power supply interruptions.

Current mitigation for restoration of water supply to Moses Kotane areas will be implemented as follows to ensure equitable water supply:

- All water will be pumped to the Mogwase reservoir until 18:00 to increase the level.
- At 18:00 the supply will be switched to Bodirelo reservoir, this will enable supply to be improved overnight.

This will be implemented from 6pm this evening for two days until 13th December 2023 at 6pm.

Magalies Water regrets the inconvenience that this has caused.
