

URGENT NOTICE

Water Supply Interruptions

Tuesday, 05th December 2023

Subject: Water Supply Interruptions Due to Pipeline Repairs at Pudimoe Water Treatment Plant

Magalies Water hereby notifies consumers receiving water from Pudimoe Water Treatment Plant (WTP) that due to pipeline repairs, that normal water supply to consumers will be compromised. The water supply challenge at Pudimoe WTP has been most pronounced from the 24th of November 2023. There have been numerous attempts to solve the pipe leakage previously, but the leak has been recurring thereafter.

Repairs to the pipeline have been completed, the team is conducting pressure testing to ensure that the repairs will withstand normal water pressure which passes through the repaired section of the pipeline, thus resulting in normal water supply. Given the extended periods, where in normal operations have been disrupted, consumers are advised that normal water supply, will resume on 8th of December 2023, given the capacity required in the system to ensure sustainable water supply.

Magalies Water regrets the inconvenience that this has caused.
