E-mail address: tebogoa@magalieswater.co.za	

4.1 Borehole

- Service Provider to remove existing trees and vegetation at the borehole site. Trees must only be removed upon approval by Magalies Water's Representative. Existing trees shall be dug, potted and stored as directed by the Engineer.
- All removed materials and rubble shall be disposed of by removing them from site at the PSP's costs. Burning of removed materials will not be permitted on the site.
- Geohydrological study
- Sitting and drilling of a new borehole
- Contractor to conduct Boreholes yield test (4 hrs steps and 24 hrs constant discharge)
- Contractor to collect water to conduct chemical & micro-biological tests at their own laboratory.
- Replacement of the existing or installing new equipment (pump, pipes, motor and fittings). Measurement of borehole depth
- Service provider to connect the borehole to the power supply. All required applications for the new connection to be completed by the Municipality.
- Service provider to install a filter and a water treatment system on each borehole. Water should be treated to a drinkable standard.
- Service Provider should verify that the newly equipped boreholes are functioning well, and pumped water is reaching the elevated (5m) tanks (20 000l) at each village prior to handing over site to the Magalies Water.

5. Pricing Schedule

Item	Description	Unit	Quantity	Unit Cost	Total Cost
1	Site establishment and borehole assessment	No.	2		
1.1	Sitting report and Drilling	No.	2		
2	Borehole yield test (4 hrs steps and 24 hrs constant discharge)	No.	2		
3	Supply of electrical cables and components	No.	2		
	5.5 Dol Starter Orange control box	No.	2		
3	Supply and installation of Timer, Conductors, Contactor, Circuit breakers, Condenser and Switch	No.	2		
4	Supply and Installation of the equipment (pump, pipes, motor, and fittings)	No.	2		
5	Supply and installation of pipe and fittings, this includes: 50 mm Screwed Flange T/1600 50 mm galvanised union 50 mm Spring-loaded check valve 50 mm flanged water metre T16 50 mm x 100m HDPE pipe Galvanised barrel nipple 100 mm Galvanised Elbow 90D FF 50mm	No.	2		
7	Supply of Pressure gate and Pressure switch	No.	2		
8	Supply and installation of the outlet with DWS specifications (water meter, pressure gauge)	No.	2		
9	Supply and installation of the dosing system (Dependent on water quality results)	No.	2		
10	Supply and Install Reverse Osmosis System	No.	2		
11	Supply and install 5m high steel stands	No.	4		
12	Supply and install 2 x 10 000l water storage tanks	No.	4		
13	4m x 4m Fence Enclosure around the borehole and tanks	No.	2		
14	Geohydrological report	No.	1		
15	Health & Safety	No.	1		
16	Development of Operations Manual and Project Reporting	No.	1

6. Specifications

Pipework and pipe fittings

All pipework and fitting to be utilised should meet the South African National Standards

Pipework and fittings should have a pressure rating of 10 Bar (PN10).

The engineer or engineer's representative to approve all material prior to installation.

Borehole Equipment

Standard for Equipment to be utilised for borehole equipment should at least match the standard of the existing equipments used.

The engineer or engineer's representative to approve all borehole equipments to be installed prior to the purchase by the contractor.

Electrical Specifications

The electrical wiring shall be carried out by registered and licensed electricians in accordance with the requirements of SANS 10142-1 and the regulations of the Employer. The works will include the following:

- (a) New borehole pumps complete with controllers at the borehole installation including electrical connections thereof.
- (b) Provision of mechanical flow pressure switches for control of the borehole pumps.
- (c) Provision of electrical supply from the existing panels to the boreholes.
- (d) Testing and commissioning of all new borehole installation

Requesting Office: Procurement	
Contact Person: Tebogo Aphane	
Contact Numbers: 014 597 4636	
Facsimile:	RFQ – DITSBOTLA BOREHOLE DRILLING
E-mail address: tebogoa@magalieswater.co.za	

Within seven (7) days after acceptance of Purchase Order the service provider shall submit for approval:

Electrical Drawings, such as:-

- Where relevant, general layout of the control panels.
- Circuit diagrams for the system.
- Block diagram of the system.
- Cable and Equipment Schedules.
- All cable routes shall be shown on the site plan drawings.

The drawings will be evaluated and approved Ditsobotla Local Municipality Electrical Department and Magalies Water.

7. Deliverables

A fully functional borehole, to meet the requirement as outlined by Magalies Water Representative and supported by Ditsobotla Local Municipality.

Upon completion of works, the contractor shall submit a comprehensive operations and maintenance manual which shall include, but not limited the following:

- Step-by-step maintenance instructions of all instruments and other components of the system that might require maintenance, clearly explaining how each item should be maintained with pictures clearly indicating service points, where applicable.
- Step-by-step calibration instructions of all instruments where applicable.
- All measurements recorded at tests during commissioning
- Results of water quality test

This documentation will be required within 14 days after Commissioning.

8. RFQ Evaluation

Submitted RFQ's will be assessed based on the following:

E-mail address: tebogoa@magalieswater.co.za	

- a) Price
- b) Timelines
- c) Methodology of conducting installation of boreholes.
- d) Key project Personal. CV's to be attached.

Bidders to propose their timelines anticipated to hand deliverables to client. A Gantt chart may be submitted to illustrate proposed timelines by bidder.

7.1 Functionality

Criteria	Weight
Technical Criteria (75 Points)	
Combined Level of or experience and knowledge (attach company profile): (45)	
1. Previous experience in delivering work of a similar nature Attached testimony letter/three contactable references <ul style="list-style-type: none"> • One project with contactable reference (10 Points) • Two projects with contactable reference (15 Points) • Three of more projects contactable references and above (20 Points) 	20
2. Knowledge of equipping and/or refurbishment of boreholes (Attach/provide proof of previous work) <ul style="list-style-type: none"> • 1x Proof either equipping and/or refurbishment previous work (10 Points) • 2x Proof of either equipping and/or refurbishment previous work (15 Points) • 3x proof of three of more and above (25 Points) 	25

9. Mandatory Requirements

1. Bidders to attend Compulsory site briefing.
2. Project Manager shall be registered as a Pr. Eng or Pr. Tech for ECSA.
3. Service Provider shall have a minimum CIDB Grading of 2CE/ 2ME

10. Compulsory Site Briefing Date

Venue : Ditsobotla LM (Itsoseng Sat Office)

Date : 13 February 2024

Time : 11h00

1. Submission of Quotations

RFQ Number must always be stated on the quotation.

Quotations should be submitted on email below. Email: tebogoa@magalieswater.co.za

2. Selection of Qualifying Quotation

The selection of the qualifying quotation will be at Magalies water's sole discretion. Magalies Water does not bind itself to accept any particular Quotation

3. Evaluation

The quotation will be checked for responsiveness according to the following **REQUIREMENTS:**

- Quotation must have CSD vendor number/ submit CSD Report
- Quotation must have RFQ reference number
- Completed and signed Declaration of Interest Form (SBD4)
- Quotation with validity period should be 30 days or more.
- Quotation with physical address, date, contact details and banking details
