

URGENT NOTICE

Water Supply Interruptions

Thursday, 08th February 2024

**Subject: Water Supply Interruptions on Wallmannsthal Supply Scheme Due to Maintenance
Work on Electrical Network**

Magalies Water hereby notifies consumers receiving water supply from Wallmannsthal Water Supply Scheme of envisaged water supply interruptions. This is due to a maintenance work by power supplier – Eskom on its electricity infrastructure. There will be a replacement of cables, in the network supplying the Wallmannsthal Water Treatment Plant with electricity, and as such, power supply interruptions will be implemented to allow technicians to undertake the maintenance work.

Consequently, the plant will not be in operation as follows:

- **24 February 2024 from 04:00 am – 8:00 pm**
- **25 February 2024 from 04:00 am – 08:00 pm**

Customers are also reminded that due to the interruptions in plant operations, the scheme will require a buffer period, within which the reservoir levels will need to significantly improve in order for normal water supply to resume. We encourage customers to use water sparingly during this period, in order to prevent prolonged water supply interruptions. Magalies Water apologizes for the inconvenience that this may cause.
