

URGENT NOTICE

Water Supply Interruptions

Greater Taung Local Municipality

Sunday, 03rd March 2024

Subject: Brown Water from Bulk Network Connected to New Taung Plant Acknowledged

Magalies Water hereby informs residents within Greater Taung Local Municipality, of complaints with respect to brown in the reticulation in various villages in Taung. Notwithstanding previously communicated water supply challenges, some of the supply lines which have been in areas with low pressured water, experiences stagnation of water due to lack of water movement and also empty pipes will result in debris and deposits which will mix with high pressured water resulting in an unusual colour.

We encourage the public to exercise patience, as once the reticulation has experienced sufficient water flow, the water in the supply lines will clear, thus the water returning to normal colour.

Magalies Water apologizes for this inconvenience that this may cause.
