

## **URGENT NOTICE**

### **Water Supply Interruptions**

**Saturday, 02<sup>nd</sup> March 2024**

#### **Subject: Brown Water Detected in Wallmansthal Supply Scheme**

Magalies Water hereby informs customers receiving water supply from the Wallmansthal Supply Scheme of brown coloured water, which was detected in the supply system. Preliminary investigations have revealed that this is due to high concentrations of manganese and does not pose health risks. Magalies Water having taken note of this incident, corrective measures were immediately taken to address this anomaly.

It is envisaged that; the colour of the water will improve overtime and return to normal standards. We urge the public to remain calm, and the matter is receiving attention.

Magalies Water apologizes for this inconvenience that this may cause.
