Subject: Water Supply Interruptions Due to Power Outages

Magalies Water hereby informs customers receiving water supply from the Wallmansthal Supply of imminent water supply interruptions. This is due to multiple power supply failures, which have affected normal scheme operations, adversely. Consequently, consumers are likely to experience a reduction in water supply, which will lead to non-supply of potable water.

Eskom has been informed and has dispatched a team of technicians to undertake investigations and provide the correct diagnosis. Further updates will be communicated once new information becomes available.

We encourage consumers to use water sparingly in order to prevent prolonged water supply interruptions.

Magalies Water apologizes for this inconvenience that this may cause.
